

MOHAMMED NOUSHAD

Senior Product Designer | UX/UI | Design Systems | AI-Driven Experiences

Dubai, UAE • +971 50 416 8582 • noushad@enkay.dev • enkay.dev • linkedin.com/in/m-noushad

PROFESSIONAL SUMMARY

Senior Product Designer with 11+ years of experience delivering end-to-end UX/UI for B2B enterprise and consumer products — from user research and wireframes to high-fidelity UI and developer handoff. Bridging design, front-end code, and AI-assisted workflows to ship faster without compromising craft. Built and scaled design systems across 5+ products. Experienced with product analytics (Hotjar, Clarity) to drive data-informed iteration. Building expertise in Agentic Experience Design (AX). Based in Dubai, available to join immediately.

CORE SKILLS

Design & Research: End-to-end Product Design, UX Strategy, Interaction Design, Visual Design, User Research (planning, synthesis), Usability Testing, Wireframing, Prototyping, Information Architecture, Responsive & Mobile-First Design, Accessibility (WCAG), Design Thinking, Agile/Scrum

Design Systems: Component Libraries, Design Tokens, Documentation, Governance, Cross-team Adoption, Figma, FigJam, Storybook

Technical: HTML, CSS, TypeScript, React, Next.js, Tailwind CSS, Git, REST APIs, VS Code, Cursor, Claude Code, Open Code.

AI & Automation: AI-assisted Design Workflows (Figma AI, Claude, GPT), Agentic Workflows (n8n, Hermes), Prompt Engineering, AI-Powered Prototyping

Tools & Analytics: Figma, FigJam, Adobe Creative Suite, Pencil, Hotjar, Microsoft Clarity, Jira, Notion, Slack

PROFESSIONAL EXPERIENCE

Product Designer — Valmont Industries, Dubai, UAE (Hybrid) | Aug 2022 – Dec 2025

Led end-to-end UX/UI for 5+ enterprise web applications serving agricultural dealers and field technicians across 40+ countries

Drove a 5-app legacy consolidation into a single unified platform — redesigned information architecture, navigation, and shared component library

Owned the Valmont Design System: built 60+ reusable components, design tokens, and documentation adopted across 3 product teams

Reduced design-to-development handoff time by 40% through standardized Figma components and token-based specs

Conducted user research and usability testing sessions with dealers and farm operators — synthesized findings into actionable UX improvements

Used Hotjar and Microsoft Clarity to identify friction points, driving a 25% improvement in key task completion rates

Tools: Figma, FigJam, Figma Make, Pencil, Hotjar, Microsoft Clarity, Jira

Product Designer (Freelance) — Independent Consultant, Dubai, UAE | Mar 2020 – Jun 2022

Delivered full-cycle UX/UI for 8+ client projects across fintech, travel, logistics, and enterprise SaaS

Designed and shipped FinFlow — a behavioral savings app with gamified goal-based tracking, from concept to interactive prototype

Led Voyacher travel platform redesign: redesigned discovery-to-checkout flow, increasing booking completion rate

Facilitated stakeholder workshops to define scope, success metrics, and product roadmaps for early-stage startups

Produced developer-ready design specs with token-based handoff, reducing implementation rework

Tools: Figma, FigJam, Notion

UI/UX Design Specialist & Motion Designer — AddSense Media, Dubai, UAE | Apr 2017 – Mar 2020

Designed responsive web and mobile interfaces for 15+ digital products and marketing platforms

Created motion design and micro-interaction prototypes to communicate UI behavior to engineering teams

Established a reusable UI kit and pattern library, cutting design time for new features by 30%

Maintained visual quality standards across all client deliverables through design reviews and style guide enforcement

UI/UX Designer — Proaims Security System, Dubai, UAE | Jan 2014 – Feb 2017

Designed user interfaces and interaction flows for web-based security management solutions

Produced wireframes, high-fidelity UI screens, and developer specification documents for stakeholder reviews

Improved dashboard usability by simplifying navigation and consolidating redundant screens based on user feedback

SELECTED PROJECTS

Valmont Legacy Redesign (2023–2025): Consolidated 5 legacy enterprise apps into a single React/Next.js web platform.

Redesigned information architecture, built shared component library, and delivered role-based dashboards. 3,000+ active users.

Voyacher Travel Platform (2021): End-to-end UX redesign for a Qatar-based voucher travel platform. Redesigned discovery, voucher management, and cross-device checkout flows. Full case study at enkay.dev/voyacher.

Valley Design System (2022–2025): Built a production design system with tokens, 60+ components, and governance guidelines. Scaled design consistency across 5+ products and 3 engineering teams.

FinFlow Savings App (2024): Designed a behavioral savings app from concept to prototype — gamified goal tracking, nudges, and rewards layer. Case study at enkay.dev/finflow.
